Smarter and Cheaper Than Target Date Funds and 60/40 Stocks/Bonds

- We've launched a bi-weekly live streaming video show about smart investing, especially for baby boomers.
- Other investors (younger and older) can benefit too.
- Learn from my 50 years of pension consulting experience to \$trillions. Smart is as smart does.
- Pay less than \$30/year for management of a \$100,000 portfolio (3 basis points).

Target date funds and 60/40 stocks/bonds are the norms in today's investing, but investors can and should do much better, especially Baby Boomers. That's why we're providing videos and reports to help you. Enjoy our <u>Infographic</u> and look for us at <u>Age Sage, Facebook</u>, <u>Youtube</u> and <u>LinkedIn</u>:
